

ESF 8 Statewide Functional Exercise

Dates: June 25 from 8am to 4pm and June 26 from 8am to noon

email: henry.yennie@la.gov

Participate and learn the new EMSTAT!

A primary objective of the exercise is to give you a chance to use the new version of EMSTAT in a no-consequence environment. You can participate in a number of different roles explained below.

Exercise Training Webinars

We are offering three webinars next week for participating facilities. Here are the dates and times:

- Tuesday, May 21st at 10 AM
- Thursday, May 23rd at 2 PM
- Friday, May 24th at 10 AM

Roles Available *(available to all facilities except where noted)*

Role	Specifics
Basic Role - all facilities	Any facility can participate in the basic role which is simply reporting your status according to the requirement that will be published at the start of the exercise.
Power Outage Role 1	In addition to the basic status reporting, the facilities in this role will also report power outages, generator usage, and potentially fuel and generator needs
Power Outage Role 2	Same as above, except these facilities will be asked to call the GOHSEP EOC or their DRC for help in entering data.
Hospital Evacuation Role	This role is for hospitals to simulate patient evacuations. They will be expected to upload their patient data into the At Risk Registry. A subset will be asked to call for help.
Nursing Home/ARCP Evacuation Role	This role is for nursing homes and ARCPs to simulate patient movement using the new EMSTAT. Like the hospital group, a subset will be asked to call for help.

You can join the webinar portion by going to <http://esf8.glance.net?key=1194>.

The conference call number is 1-888-640-7748; PIN: 263885#

Remember there is a limit of 100 participants per webinar. We will be recording one of them, and we will schedule more in the coming weeks. No need to let us know - just join when you can.

What you will learn:

- What to expect during the exercise: Notifications and triggers to start certain actions; review of the major scenarios
- How to get help: Who to call if you need help with your user accounts, using the new EMSTAT, the At Risk Registry, etc.

If you are interested in participating in the exercise, please email henry.yennie@la.gov.

Thanks!
